Career Objective

Enthusiastic Full Stack Web Developer and Computer Science Engineering graduate with hands-on internship experience building production-ready web applications. Strong in React.js, Node.js, MongoDB, and REST API development. Seeking opportunities to contribute to impactful software engineering teams while growing in scalable system design, cloud services, and enterprise-level application development.

Experience

Amdox Technologies – Full Stack Developer Intern *11/2025 – 01/2026 | Bengaluru, India*

- Developed a full-stack job-seeker web platform connecting employers and candidates using **React.js, Node.js, Express.js, and MongoDB**.
- Built **RESTful APIs** for user authentication, job listings, and application management, improving data flow efficiency.
- Designed responsive UI components with React.js and Tailwind CSS; collaborated with the team via **Git/GitHub** for version control and code reviews.
- Demonstrated dedication, professionalism, and technical growth acknowledged by the Dev Team Lead.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), Java (Intermediate), HTML5, CSS3
- **Backend & Frameworks:** Node.js (Intermediate), Express.js (Intermediate), REST APIs
- **Databases:** MongoDB (Intermediate), SQL / MySQL (Intermediate)
- **Frontend:** React.js (Intermediate), Tailwind CSS, Responsive Design
- **Tools & Cloud:** Git, GitHub, VS Code, AWS (Basics), Agile Methodology
- **Soft Skills:** Communication, Problem-Solving, Analytical Thinking, Team Collaboration, Leadership

Projects

Admox Job Seeker Platform | *React.js, Node.js, Express.js, MongoDB, REST APIs* | GitHub

- Built a production-ready full-stack job portal enabling job seekers to browse listings and employers to post opportunities.
- Implemented user authentication, dynamic job search filters, and real-time application tracking.
- Designed a scalable RESTful backend using Node.js and Express.js with MongoDB for data persistence.

Weather Monitoring Application | *JavaScript, HTML5, CSS3, REST APIs*

- Developed a real-time weather web app integrating OpenWeatherMap API to fetch live data for any global city.
- Implemented dynamic location search displaying temperature, humidity, and weather conditions in a clean, accessible UI.
- Optimized API call handling and DOM manipulation using vanilla JavaScript for fast, responsive performance.

Education

Bachelor of Engineering: Computer Science and Engineering
Kongu Engineering College
Erode
GPA: 6.79

Certifications

- Certificate of Training – Web Development, Amdox Technologies (Feb 2026) | ID: adx/ZjyO2w9Yte
- Certificate of Internship – Web Development, Amdox Technologies (Feb 2026) | ID: adx/sO9sO4ngBu
